## Veri Tabanı Yönetim Sistemleri Proje Ödevi

İzzet İlker Durdu

B181210033 1-B

izzet.durdu@ogr.sakarya.edu.tr

## Uygulama Tanıtımı:

Merhabalar. Bu projemizde bizlerden veri tabanı yönetim sistemini aktif olarak kullandığımız bir proje hazırlamamız istendi. Ben bir kütüphane uygulaması yazmaya çalıştım elimden geldiğince optimize bir şekilde veri tabanını oluşturdum ve uygulamamı .net ortamında geliştirdim. Projemın detayları aşağıdadır.

## İş Kuralları:

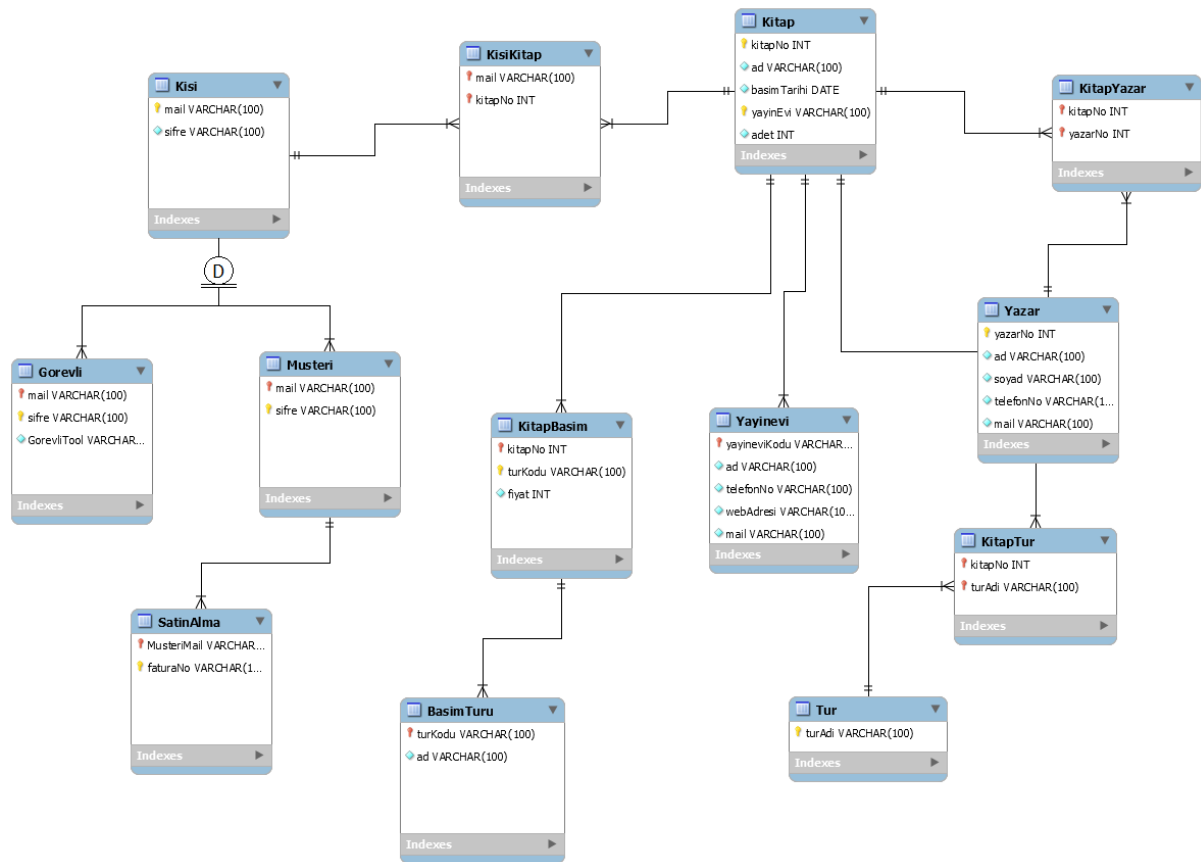

- 1- Kişiler, siteye giriş yaparken kullanılacak şifreye ve maile sahiptir.
- 2- Kişiler görevli veya müşteri olabilir.
- 3- Görevlinin kendine özel araçları vardır.
- 4- Her kitap bir numaraya, isme, basım tarihine, yayınevine ve adede sahiptir.
- 5- Kitaplar birbirlerinden numaraları ile ayrılırlar.
- 6- Her yayınevi, yayınevi koduna, isme, telefon numarasına, web ve mail adresi bilgilerine sahiptir.
- 7- Basım türü bilgisi, kitaplar için basıldıkları tür bilgisini kod ve ad özellikleri ile tutmaktadır.
- 8- Her yazar yazar numarasına, isme, soyada, telefon numarası ve mail bilgilerine sahiptir.
- 9- Yazarlar birbirlerinden yazar numaraları ile ayrılırlar.
- 10- Her kitap için tür bilgisi bulunur ve tür bilgisi tür adi ile birbirlerinden ayrılır.
- 11- Her müşteri için satın alma işlemi mevcuttur.
- 12- Fatura numarası bilgisi ile satın alma işlemleri birbirlerinden ayrılır.
- 13- Bir kişi birden fazla kitap alabilir, hiç kitap almayabilir.
- 14- Bir kitap birden fazla kişi tarafından alınmış olabilir, hiç alınmamış da olabilir.
- 15- Bir müşteri birden fazla satın alma işlemi yapabilir, hiç yapmamış da olabilir.
- 16- Bir satın alma işlemi en az bir en çok bir kişi tarafından yapılmış olmalıdır.
- 17- Bir kitaba ait birden fazla yazar olabilir, en az bir yazar olmalıdır.

- 18- Bir yazar birden fazla kitap yazmış olabilir, hiç kitap yazmamış da olabilir.
- 19- Bir yayınevi birden fazla kitaba sahip olabilir, hiç kitabı olmayabilir.
- 20- Bir kitap en az bir en çok bir yayınevine sahip olmalıdır.
- 21- Bir kitap birden fazla basım türüne sahip olabilir, hiç basılmamış olabilir.
- 22- Bir basım türü birden fazla kitap için kullanılmış olabilir, hiç kullanılmamış da olabilir.
- 23- Bir kitap birden fazla türde olabilir, en bir türde olmak zorundadır.
- 24- Bir türe ait birden fazla kitap olabilir, en az bir kitap olmak zorundadır.

## İlişkisel Şema:

- 1- Kitap(**kitapNo:integer**, ad:varchar, basimTarihi:date, **yayinEvi:varchar**, adet:integer)
- 2- Yayınevi(**yayineviKodu:varchar**, ad:varchar, telefonNo:varchar, webAdresi:varchar, mail:varchar)
- 3- KitapYazar(**kitapNo:integer**, **yazarNo:integer**)
- 4- Yazar(**yazarNo:integer**, ad:varchar, soyad:varchar, telefonNo:varchar, mail:varchar)
- 5- KitapTur(**kitapNo:integer**, **turAdi:varchar**)
- 6- Tur(**turAdi:varchar**)
- 7- KitapBasim(**kitapNo:integer**, **turKodu:varchar**, fiyat:int)
- 8- BasimTuru(**turKodu:varchar**, ad:varchar)
- 9- KisiKitap(**mail:varchar**, **kitapNo:integer**)
- 10- Kisi(**mail:varchar**, sifre:varchar)
- 11- Gorevli(**mail:varchar**, **sifre:varchar**, gorevliTool:varchar)
- 12- Musteri(**mail:varchar**, **sifre:varchar**)
- 13- SatinAlma(**MusteriMail:varchar**, **faturaNo:integer**)

### Varlık Bağlantı Modeli:

## Uygulamaya Ait Ekran Görüntüleri:

The screenshot shows a window titled 'Kullanıcı Paneli'. At the top, there are two input fields: 'KİTAP ADI:' and 'YAZARI:'. To the right of the 'YAZARI:' field is a button labeled 'ARA'. Below these fields is a table with three columns: 'Kitap Adi', 'Yazari', and 'Fiyat'. The table is currently empty. At the bottom left of the window is a button labeled 'SEPETE EKLE'. At the bottom right is a label 'Sepet Toplam:' followed by an empty input field.

The screenshot shows the same 'Kullanıcı Paneli' window. The 'KİTAP ADI:' field now contains 'Suç ve Ceza' and the 'YAZARI:' field contains 'Dostoyevski'. The 'ARA' button is still present. The table below now has one row of data: 'Suç ve Ceza' under 'Kitap Adi', 'Dostoyevski' under 'Yazari', and '0' under 'Fiyat'. The 'SEPETE EKLE' button is at the bottom left. The 'Sepet Toplam:' label at the bottom right now shows the value '20'.
